Wednesday Challenge Form

Group Members: Zachary, Justin and Monte

Problem Statement: we had to design an e and Create someone else's

Approach: We tried to make a simple e so that the other team would be able to make it easy And we hoped we would get an easy one

Solution: We ended up getting a hard e to create and although we tried we did not have enough time to create it and the other team Finished so we choose to submit theirs

Lessons Learned: Don't be nice
