

Date:

Wednesday Challenge Form

Group Members: Zachary, Tyler,

Problem Statement: We were given a bag of nuts and bolts which said it weighed 1 killogram and one weight that said it was one killogram and we had to figure out the ratio.

Approach: My team and I choose to use our Hands with measuring the objects then the scale

Solution: The only team that won the Wednesday challenge was the one that answered the questions

Lessons Learned: We learned how to use the Scale properly
